Entering of Prime Sheep for weekly Thursday Sales.

Can all vendors of Prime Lambs and Cast Ewes ensure that they are entered before 6pm on Wednesday prior to the Thursday Sale. We as auctioneers do the best of our ability in speaking with butchers, meat wholesalers and abattoirs in order to make sure that there are enough buyers present and orders placed to cover the expected presented Thursday numbers. Over the last month we have incurred an extra 600-800 prime lambs on a Thursday over what have been booked in. This put expected pressure upon the sale and ultimately the price you receive.

Auctioneers and Field staff do their best in making calls to guide vendors of the expected trade and to explain the current market conditions. Again, Help us to Help you.

Market Report – Monday 4th December 2017

Darlington Farmers Auction Mart held their weekly sale of Cast Cattle, Store and Breeding Stock on Monday 4th December 2017, forward were 610 Cattle.

Monday 4th December – Darlington Auction Mart had forward:

119 Cast Cows sold to 190ppk & £1236.

7 Cast Bulls sold to 181ppk & £1303.

View From the Box

With Stephen Dodsworth off on holiday this week I am left once again to write this week's market weekly. So as Stephen takes one of the busiest weeks of in our annual calendar with the suckled calve sale on Monday, store sheep on Tuesday followed by our weekly sale of primestock on Thursday, it's starting to look like it's all getting to much for the 40 year old man that is nearly 18 stone with bad knees.

Cattle

fat cattle remaining a good trade as the butchers and wholesalers stock up for Christmas, we advise to keep selling your cattle when the trade is there, as we will start to see a slight dip in the trade as we continue through Christmas into the New Year. On the back off that store cattle still holding their own with number coming forward. Cast cow and cast bulls are still remaining a good trade, we will also start to see a dip in cow trade as the schools break up for the Christmas holidays.

Sheep

Store lambs to £84 in December! The trade for stores looks remarkable to me, they looked a fair trade in August and September however some of those lambs now look very well bought, those dipping their toe into the hogg finishing waters certainly need the spring trade to come strong for them. The Christmas show for lambs is this year on the 14th and for the first time we will try pens of three, the two reasons behind this are to make it easier for the vendor to draw a matching pen and also encourage the buyers to pay a premium for a smaller number of lambs.

And finally.....

We have a hypocrite in the camp of DFAM a member of staff once said that NO STAFF should be allowed the time off work on a busy sale day such as a suckled calve sale, that member of staff actually took Monday off after he ranted and raved on about the other staff having the time off, isn't that right Doddy ?

Daniel Lynn

View from the Field

Simplified Countryside Stewardship

On 30 November 2017 DEFRA announced details of four simplified Countryside Stewardship applications which will open in the New Year. The four new offers are online arable offer, lowland grazing offer, upland offer and mixed farming offer. These will provide tailored options making it easier for farmers and landowners to apply. DEFRA have said that paperwork for the new offers is quicker and easier and they have streamlined evidence checks and made the applications shorter to save time in the application process. They have also confirmed the new scheme is non-competitive. Scheme handbooks and details on how to apply will be published in the New Year to coincide with the application window opening.

Online Arable Offer There are 11 arable options to choose from with three categories – nectar and pollen sources, winter food for seed eating birds and additional resources and habitats. Farmers must pick at least one option from each category and the package delivers the minimum 3% of farmland under option management which is needed for farmland birds and wild pollinators.

Lowland Grazing Offer There are 7 options and these are divided into 3 categories – nectar and pollen sources, nesting and shelter for insect pollinators, optional additional resources and habitats. Farmers must pick at least one option from category 1 and 2 but can select more options if they wish.

Upland Offer There are 4 base options and 4 additional supplements farmers can choose and there are no categories under this offer. Farmers must pick (as a minimum) 1 base option and 2 supplements or vice versa. The minimum number of options/supplements is 3 however more options can be selected if required.

Mixed Farming Offer There are 17 options and these are divided into 3 categories – nectar and pollen sources, winter food for seed eating birds, additional resources and habitats. Farmers must pick one option from each category to ensure the package will provide year round food, shelter and nesting habitat for birds and nectar sources and habitat for pollinating insects.

All of the above agreements will run for five years. If you would like any further information on how to apply and would like to discuss the options in detail then please do not hesitate to contact Pat at our Tow Law office on 01388 730095 or email pcotterill@vickersandbarrass.co.uk

Update for Hedgerow and Boundary Grants Applications 2018

Natural England has confirmed the above will be rolled out early in 2018 (although no exact date has been published). The total budget from DEFRA has been increased to £10 million and the maximum grant farmers can apply for has risen to £10,000.

For further information please contact Pat on 01388 730095 or pcotterill@vickersandbarrass.co.uk
